Hydrobiologia **406:** v–vii, 1999.
B. M. Healy, T. B. Reynoldson & K. A. Coates (eds), Aquatic Oligochaetes.

Contents

Preface ..... ix–x
List of Participants ..... xi–xii
Andreina Di Chiara (1937–1997): In Memoriam ..... xiii–xiv

Historical reviews

Past symposium attendees in the group photograph.
by Stuart R. Gelder & Susan M. Peterson 1–7
Retrospect and Prospect: reflections on forty years of study of aquatic oligochaetes
by Ralph O. Brinkhurst 9–19

Taxonomy and geographic distribution

Zoogeography of branchiobdellidans (Annelida) and temnocephalidans (Platyhelminthes) ectosymbiotic on freshwater crustaceans, and their reactions to one another *in vitro*
by Stuart R. Gelder 21–31
Studies on the aquatic oligochaete fauna in Lake Biwa, central Japan. II. Records and taxonomic remarks of nine species
by Akifumi Ohtaka & Machiko Nishino 33–47
Monopylephorus camachoi nov. sp., a new rhyacodriline worm (Tubificidae, Clitellata) from the Coiba Island, on the east Pacific Coast of Panama
by Pilar Rodriguez 49–55
Records of Enchytraeidae (Clitellata) from the People's Republic of China
by Hongzhu Wang, Zhicai Xie & Yanling Liang 57–66
Distribution of freshwater oligochaetes in the west and east coastal regions of the North Pacific Ocean
by Tarmo Timm 67–81

Systematics and evolution

Enzymatic variability in sympatric species of *Tubifex* (Clitellata: Tubificidae)
by Andreina Paoletti Di Chiara, Manuela Pagani & Barbara Leoni 83–86
Terrestrial polychaetes – models for the evolution of the Clitellata (Annelida)?
by Günter Purschke 87–99

Distribution, abundance and habitats

Clitellate diversity in Nationalstadsparken, an urban national park in Stockholm, Sweden
by Christer Erséus, Reinmar Grimm, Brenda Healy, Stefan Lundberg, Emilia Rota & Tarmo Timm 101–110
Finding enchytraeid oligochaetes (Clitellata) in hot climates: species occurrence on the shores of Bermuda
by Brenda Healy & Kathryn A. Coates 111–117
Spatial distribution of oligochaetes (Clitellata) in the tidal freshwater and brackish parts of the Schelde estuary (Belgium)
by J. Seys, M. Vincx & P. Meire 119–132
Distribution and dispersal capacity of the Ponto-Caspian tubificid oligochaete *Potamothrix heuscheri* (Bretscher, 1900) in Scandinavia
by Göran Milbrink 133–142
Oligochaeta and Aphanoneura in two Northern German hardwater lakes of different trophic state
by Rut Collado, Peter Kasprzak, & Rüdiger M. Schmelz 143–148
Micro-distribution of oligochaetes in a soft-bottomed lowland stream (Elsbeek; The Netherlands)
by Piet F. M. Verdonschot 149–163
Oligochaeta from the abyssal zone of Lake Baikal (Siberia, Russia)
by Patrick Martin, Koen Martens & Boudewijn Goddeeris 165–174
Oligochaetes of Karavasta Lagoon (Albania). Preliminary results
by S. Casellato 175–182

Population dynamics

A comparison among different population models for *Limnodrilus hoffmeisteri* Claparède (Oligochaeta, Tubificidae)
by Andrea Pasteris, Martina Vecchi and Giuliano Bonomi 183–189
Assessment of secondary production of Naididae (Oligochaeta): an example from a North German lake
by Boris Löhlein 191–198

Histology and ultrastructure

Ultrastructure and functional significance of intestinojunctional spermathecae in enchytraeids (Oligochaeta, Annelida)
by Wilfried Westheide 199–211
New sperm types in Naididae and Lumbriculidae (Annelida: Oligochaeta) and their possible phylogenetic implications
by Marco Ferraguti, Christer Erséus, Irina Kaygorodova & Patrick Martin 213–222
CLSM analysis of serotonin-immunoreactive neurons in the central nervous system of *Nais variabilis*, *Slavina appendiculata* and *Stylaria lacustris* (Oligochaeta: Naididae)
by René Hessling, Monika C. Müller & Wilfried Westheide 223–233

Development, physiology and behaviour

Tubificoides benedii (Tubificidae, Oligochaeta) – a pioneer in hypoxic and sulfidic environments. An overview of adaptive pathways
by O. Giere, J.-H. Preusse & N. Dubilier 235–241
Decoupling of fission and regenerative capabilities in an asexual oligochaete
by Alexandra E. Bely 243–251
Autotomy reflex in a freshwater oligochaete, *Lumbriculus variegatus* (Clitellata: Lumbriculidae)
by Nalena M. Lesiuk & Charles D. Drewes 253–261
Helical swimming and body reversal behaviors in *Lumbriculus variegatus* (Annelida: Clitellata: Lumbriculidae)
by Charles D. Drewes 263–269

Pollution studies

Bioaccumulation test with Tubificid Sludgeworms in artificial media – development of a standardisable method
by Philipp Egeler, J. Römbke, M. Meller, Th. Knacker & R. Nagel 271–280

Progress Report

Lumbriculids, branchiobdellidans and leeches: an overview of recent progress in phylogenetic research on clitellates
by Ralph O. Brinkhurst 281–290
